PRES. WILSON DENIES REPORT

ARMISTICE COMMISSION NOT TO HAGGLE

British, French and Yanks Will Keep Up Speedy Advance

The armistice delegates from Germany entered the French line last night and met Field Marshal Foch at 9 o'clock, French time, Friday morning. From him they will receive the armistice terms of the Allied governments. The historic meeting occurred in a little village in the department of the Aisne. Germany will be given 72 hours in which to reply to the terms presented by Marshal Foch. It is declared there will be no cessation of hostilities.

The German delegates will not be permitted to haggle, they must accept or go on fighting.

British, French and American troops maintain the pressure which has driven the enemy from many square miles of French territory in the past week. On the north the British are moving on

and are less than three miles from Mauberge, while the Americans command the situation at Sedan, although they apparently do not hold the entire city.

The French are pressing on less than eight miles to the south. Elsewhere on the front the French army continues the rapid advance of the last three days. At no point are the French more than thirty miles from the Belgian frontier, and at most places the

Hour of Meeting of Armistice Commission Arrives—Now in Session—Bitter Fighting Continues, No Cessation—President Wilson Nails Peace Lie

PRINCE HENRY LEAVES IN AUTO FLYING RED FLAG

(By Associated Press)
Copenhagen, Nov. 8.—Prince Henry brother of Emperor William left Berlin in an auto flying a red flag, pursued by marines who fired twelve shots at him. This is according to a news dispatch received here.

GERMAN MAJORITY PARTY DEMANDS KAISER ABDICATE.

London, Nov. 8.—The German majority party held a final discussion on the question of Emperor William's abdication and will without doubt unanimously demand that he abdicate, according to a Berlin dispatch to Copenhagen forwarded by the Exchange Telegraph Correspondent. The abdication, it is added, probably occurs tomorrow.

(By Associated Press)
Washington, Nov. 8.—President Wilson issued a statement shortly after noon today that the report that news reaching the government concerning armistice negotiations was being withheld, was utterly false, and that as soon as a decision in regard to the armistice was reached it would be made public immediately by the government.

Distance over which they have to drive the invaders is much less. Virtually all of the German navy is in the hands of revolutionists who also are reported in power in Hamburg and most of northwestern Germany adjacent to the North Sea.

Paris, Nov. 8.—The German delegates who are empowered with the authority to negotiate an armistice with the Allies were sent through the French lines as directed by Marshal Foch, arrived at Capelle last night. They were taken to a house prepared to receive them under the direction of

Foch. They remained there during the night and this morning they arose early and were conducted to the meeting place as designated. It will take four hours to reach the place where the conference will be held. Marshal Foch will have with him the Third Lord of the British Admiralty, General Mueseneygard of the French army. The German Commission is composed of the officers as previously announced. The meeting cannot, according to time it will take to reach the meeting place, occur before afternoon.

Paris, Nov. 7.—The powers conferred upon Marshal Foch are strictly confined to the terms of the armistice according to the Echo-De Paris. The formation of the terms as laid down by the Inter Allied Council limit the Marshal and give no latitude for discussion. If the credentials of the commission from Germany are found adequate and give them all the powers in the acceptance of terms, the session will be brief. A time limit of 72 hours in which to report acceptance or rejection has been fixed.

NOVEMBER CALL MAY BE CANCELED

Prospects of Armistice May Result in Not Ordering 300,000 Men Into Camp—Conference On

Washington, Nov. 8.—Provost Marshal General Crowder called all the heads of departments into session today to discuss important matters. It is possible that the November draft call for 300,000 men to proceed to the various camps will not be made. Gen. Crowder would not, however, say what he would do or what recommendation he would make to the General Staff regarding the November call. If

the Germans sign the armistice and agree to all terms and with four million men now across seas or under arms at home, the feeling is growing that no more men will be needed before the American forces are recalled from France. Some additional men may be sent to France in order to relieve the men there as it will take much time to complete the demobilization and carry out all the terms.

RAILROAD TELEGRAPHERS GET INCREASE

(By Associated Press)
Washington, Nov. 8.—An order granting railroad telegraphers a general increase in wages has been signed by Director General McAdoo. The advance will average about \$36.00 per month.

EARTHQUAKE RECORDED AT CAPITOL

(By Associated Press)
Washington, Nov. 8.—An earthquake of considerable intensity, starting at 11:50 o'clock last night and continuing until shortly after two o'clock this morning, was recorded on seismographs at Georgetown University Observatory. A maximum disturbance was at 12:30 and the distance from Washington approximately 5,900 miles.

THE HERALD AND CHRONICLE WILL GIVE YOU THE NEWS

The wide circulation yesterday of unfounded reports that an armistice had been signed with Germany should serve to warn the public of the folly of putting credence in rumors emanating from unauthorized and irresponsible sources. As peace draws nearer, the temptation to spread such "fakes" grows. The moral for the public is plain: Don't credit tales that peace has come until the news is contained in statements, in whose veracity you can have confidence. The Associated Press, which serves the Herald and Chronicle, has access to all official sources of information and possesses all facilities for swift and accurate transmission of the news. When peace comes, it will give the news to the country without delay.

When there is real peace news you will get it promptly through the Evening Herald or Morning Chronicle.

4 SURVIVORS OF U. S. STEAMER PICKED UP

(By Associated Press)
Honolulu, Nov. 8.—Four survivors from the U. S. Shipping Board's steamer Or Durwan which was struck by

lightning on Oct. 16 were landed here last night from a government vessel. They were picked up from a life raft 200 miles from the island of Guam and are the only known survivors of a company of 46 men on board when she went down.

ANOTHER CLASH ON MEXICAN BORDER

(By Associated Press)
El Paso, Texas, Nov. 8.—One Mexican Federal soldier was reported killed and ranger J. R. Perkins was missing after a clash between Texas rangers and Mexicans early this morning, according to word received here. The fighting occurred on "The Island" thirty-two miles southeast of El Paso. The international boundary passes through the island.

CONGRESS TO CURB OUTLAY AT WAR'S END

Washington, Nov. 8.—Senator Martin of Virginia, Democratic leader in the Senate, said today that Congress will call on the executive departments of the Government to curtail war expenditures immediately upon the signing of an armistice by Germany. He also said that the War Department will be asked to stop calling men into the military service as soon as the war ends.

Senator Martin declared that appropriations for war purposes in the last two years have aggregated \$37,000,000,000 and that he is deeply concerned over the effect the expenditures are having upon the country.

Leaders of both parties share his views, he said, and added that he soon would have something to say in the Senate on the necessity for curtailing Government expenses after the armistice is signed.

Extravagance in war expenditures is admitted by Democratic leaders, the Senator asserted, but it has been justified on the ground that it has been necessary in order to guard against having troops in the field inadequately equipped with ammunition, food and clothing.

The Democratic leader declared his opposition to universal military training, saying it would lead to continued heavy expenses for enlistments and other war necessities in peacetime.

One method of curbing war costs suggested by the Virginia Senator was reduction in the number of clerks employed in Washington and abandonment of the construction of housing for purely war activities.

Senator Martin said he recently had been informed by Housing Commissioner Hilditch that it is the intention to curtail this construction.

ROCHESTER

Rochester, Nov. 8.—At a regular meeting of the city council Councilman Dana S. Roberts, a new member was appointed a member of the printing and purchasing committee. A junk dealer's license was granted Samuel Belinski of this city on motion of Councilman Blackford. Voted to grant the relocation of the electric railroad, as asked, in the vicinity of the Salmon Falls railroad crossing. A resolution presented by Councilman Blackford at the last meeting relative to the discontinuance of the present outlay on the Farmington road was taken from the table and passed. The mayor and highway committee was empowered to dispose of city land in the vicinity of the Eastern avenue extension at 10 cents a foot. The lighting contract of the Twin State Gas and Electric company was tendered the city council and read by Mayor Young, and the matter was left to the consideration of the mayor, city solicitor and committee, on street lights.

At the Methodist parsonage Wednesday evening, Rev. Cyrus L. Corlies united in marriage Charles J. Wood, a well known tonsorial artist, and Miss Addie Reynolds, both of this city. The single ring service was read and the couple were unattended. The bride is the daughter of Fred Reynolds of Elm ball street, a graduate of the Rochester high school, attended New Hampshire State college, and is now a member of the clerical force at the Wallace shoe factory. Mr. and Mrs. Wood will reside in this city.

MERCHANT MARINE MAKES RECORD

(By Associated Press)
Boston, Nov. 7.—The United States Shipping Board made a record the past week when it graduated 2,553 officers for the Merchant Marine. This announcement was made by Commissioner Henry Howard. The total enlistments were 6,882.

THE SOLDIERS' MAIL

The mail service for our army abroad has now been taken over by the army. It is handling a million letters a day that are received in France from this country, and about 300,000 letters a day that are mailed in France for soldiers in France. It has warehouses for sorting mail at French ports, it has a railway mail clerk on some 2,000 miles of French railroads. It has a central postoffice at Tours, permanent postoffices at various points, mobile postoffices right up to the firing lines, and mail orderlies attached to each company of troops.

In the past, when the mail service for the army was under civil control, great delays were caused in the delivery of mail by the necessary secrecy concerning troop movements. Now, under military control, all movements of the mobile postoffices are telegraphed in code to the distributing postoffices and the letters follow the soldiers as they march. All the hospitals notify the central postoffice of the identity of wounded soldiers received or transferred. The central postoffice works with the central Record Division of the Adjutant General's office where every soldier in the army is card-indexed, and 150 men

are there constantly employed searching out addresses. A system has been devised by which delivery may be quickened to "replacement units" who have been scattered among widely separated troops. And, various means have been found for overcoming delays due to lack of shipping facilities or congestion of mail in crowded posts.

It still remains true that mail for some 50,000 soldiers in France is delayed because the letters are inadequately addressed. In the future all such letters will be stopped at New York and returned to their senders.

It is estimated that 300,000 letters a month have been delayed in the past because the men were in "replacement units." This "Boater's mail" is now being handled expeditiously. The delay due to censorship is not great and it is being reduced.

The army authorities are aware that nothing sustains the morale of a soldier like letters from home. The mobile postoffices now keep up with the troops; the mail is received with the rationals at the kitchen; and the whole reorganized postal service is devoted to providing that the dough-boy's letters shall reach him as promptly and regularly as his meals.

DOVER

Dover, Nov. 8.—Reports from Chairman Desautels of the local war stamp organization shows that during election day over \$950 was added to the sales in this city through the efforts of the women who worked at the various voting places in this city.

The announcement that Hon. Andrew Kilborn of Hood farm is not to be a candidate for re-election as a member of the school board, on which he has served for 13 years, came as a great surprise. Mr. Kilborn has for years been a leader upon this important board and always ready to do his best efforts in the interest of Dover schools and is extremely popular with the pupils and also the teachers.

the St. Mihiel salient, for, notwithstanding that the German fairly run across to their famous Hindenburg line, they did hold along the western edge of the sector, and by the time the Americans had been able to take it great mines had torn the roads and fields asunder, the roads had been wrecked almost beyond repair by intentional enemy agencies as well as by American artillery. What was left of the Hindenburg line dugouts once inhabited by the Germans had been blown and smashed and crushed to a tangled mass of wreckage.

It is the center of the line between the Meuse river and the Argonne forest however, where the fighting has been bitterest, that the destruction is most complete, where every handiwork of God and man has been desecrated as one could not believe without seeing it could be destroyed. Flanders may be worse, as the English claim, but it is doubtful because there was not as much there to destroy, to blast and to wither.

The only comparison, perhaps, is in the fertile Champagne, where more than four years of attacks and counter attacks, bombardment and counter bombardment have reduced every dwelling and building to a series of craters, and have bitten off every forest and clump of trees to form stumps minus branches or leaves.

COUNTRY GOES WILD OVER PREMATURE PEACE

New York Leads in Almost Riotous Celebration

(By Associated Press)
New York, Nov. 7.—Reports that Germany had signed the terms of armistice and fighting had ended threw the populace of this city into a delirium today. This in spite of official announcement failed to stop the millions who had apparently gone wild over this premature announcement. It was a mixture of New Year's Eve, Thanksgiving Day and Christmas. Hells, whistles and every conceivable noise-making machine was brought into play. The people will not know how they had been fooled until they read their morning newspaper. The dispatch which was alleged to have been sent from France to the American Agency made it appear that the armistice had been signed at 11 o'clock when in fact by Paris time the meeting

reported would not have been held until 2 o'clock.
The Associated Press issued denials early in the day when the fake story was put out.
Churches were opened and thousands of people overflowed over the steps that peace had been declared. Hands were raised and with uplifted hands prayed. There were thousands of mothers and fathers who had sons "Over There" and they were rejoicing that peace had come. The main thoroughfares, Broadway and Fifth avenue, were thronged with excited thousands each bearing the American flag, shouting and screaming like mad men and women. It was a sight never to be forgotten and yet it was wholly the result of fake information given to them as news when in fact it had been officially denied hours before.

HOW YOU CAN SAVE HEAT

Washington, Nov. 7.—With the wintry weather coming on, the Bureau of Mines, Department of the Interior, offers a novel scheme to home-builders in the form of a plan for hot-water apparatus to be installed in houses during severe weather. It is of the opinion that when the outside air is down to nearly zero, it will be profitable to use the cold-air duct, shutting off the air from the outside and substituting another air duct from the inside of the house where the air has been somewhat heated.

With most hot-air systems it is possible to save a considerable amount of heat, to effect a saving of 20 to 30 per cent in the coal required to heat the buildings in severe weather, and

the building can be kept far more comfortable. In fact, it is a plan to change hot-air houses into a system whereby the air supply to the furnace may be taken from inside the house, instead of from outside, during very cold or windy weather.

The plan here recommended is merely the addition of an auxiliary cold-air duct by which the air supply to the furnace may be taken from inside the house, instead of from outside, during very cold or windy weather.

There is, of course, nothing novel in this proposal. Hot-air furnaces have been installed on this plan for many years, and the only surprising feature is that all furnaces are not installed in this way. Instead of an occasional one. The saving in coal made possible by such an arrangement is obvious when one considers the difference between heating air taken from outdoors, which may be at zero temperature or below, and air taken from inside the house entering the furnace at a temperature averaging perhaps 60 degrees F.

The saving in fuel is especially great, of course, where a hot-air furnace is designed and installed, as all hot-air furnaces should be, to deliver a large volume of warm air instead of

a small volume of very highly heated air. It is, in fact, a material advantage of the auxiliary cold-air inlet from inside the house that it enables a furnace to be installed which will deliver warm air instead of hot air—a thing which is difficult or impossible when the entire air supply is taken from outdoors.

One might suppose that all hot-air furnaces would be built according to the plan here recommended; but for the ordinary dwelling the heating apparatus usually receives only such thought and attention as the plumber or builder cares to give it. It is a question of putting in equipment that will cost the least and sell for the most, rather than what will give the best results in operation.

In these times, however, when economy at every point is demanded as a patriotic duty, it is surely the duty and the opportunity of engineers to undertake leadership in this reform. No argument whatever is necessary to convince engineers of the practical advantages of the change here urged.

The bureau has issued on this subject Technical Paper 268, "How to Improve the Hot-Air Furnace," a copy of which may be obtained by addressing the Director of the Bureau of Mines, Washington, D. C.

GLASS OF SALTS CLEANS KIDNEYS

If your Back hurts or Bladder bothers, drink lots of water.

When your kidneys hurt and your back feels sore, don't get scared and try to lead your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean by keeping your bowels clean, by flushing them with a mild harmless salts which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in urine so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep their kidneys clean and active. Try this and keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.

OIL SYNDICATES WORSE THAN HUN

Lima, Peru, Nov. 7.—The Peruvian government refused to permit the American tanker Bradford and the British tanker Lobo to load at the Peruvian fields for Vancouver unless they first brought cargoes of oil to Callao to avert a serious oil famine in Lima.

The Bradford, which is under charter to the International Petroleum Company, cleared yesterday for a Mexican port in ballast.

The shortage of oil here threatens a complete suspension of industries, including operation of the Central railway, which serves large copper mines. The famine is due to lack of tank ships.

Speaking in the Chamber of Deputies on the incident, Deputy Felipe Barreda declared:

"The absorbent imperialism of the British and American oil syndicates in Peru is more intense and antagonistic than German imperialism."

HEADACHE FROM A COLD? LISTEN!

"Pape's Cold Compound" ends severe colds or grippe in few hours.

Your cold will break and all grippe misery end after taking a dose of "Pape's Cold Compound" every two hours until three doses are taken.

war, "Germany must be made to understand that her plan has failed in the industrial field as well as in the military." A Mitchell Palmer, alien property custodian, called on the bankers of America, in an address at the Metropolitan Club here, to aid him in "Americanizing the great controlled industries in this country until every iota of enemy ownership has been wiped out."

He declared that he was now holding about \$90,000,000 worth of enemy property; that he expected soon to have more than 1,000,000,000, and that he hoped to be empowered to use this money "to pay just claims of American citizens against the German government, due to its illegal warfare."

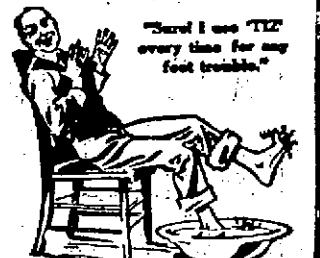

Stating that "in the next few weeks we will sell approximately \$200,000,000 worth of enemy-owned securities in this country at public auction," he appealed to bankers to help him "crush the strange hold which Germany, through its bankers and agents, has had upon most of the essential industries of this country."

He described the German bank as "a spider's web that spreads over the financial world" and declared that German bankers, in this country alone, had added in building up industry after industry "totalling possibly \$2,000,000,000 in money value and billions more in potential political value."

"Without attempting to prophesy what may be done with the proceeds, for this must remain to be settled by the treaty of peace, it is safe to say that the businesses which the Germans built up in America will be lost to them forever," said Mr. Palmer. "No other course would be compatible with the safety of American institutions. No other course would make the American field of industry and commerce safe for democracy."

CAN'T BEAT "TIZ" WHEN FEET HURT

"Tiz" for sore, tired, puffed-up, aching, calloused feet or corns.

You can be happy-footed in a moment. Use "Tiz" and never suffer with tender, raw, burning, blistered, swollen, tired, aching feet. "Tiz" and only "Tiz" takes the pain and soreness out of corns, callouses and bunions.

As soon as you put your feet in a "Tiz" bath, you just feel the happiness soaking in. How good your poor, old feet feel. They want to dance for joy. "Tiz" is grand. "Tiz" instantly draws out all the poisonous exudations which puff up your feet and cause sore, inflamed, aching, sweaty feet.

Get a 25-cent box of "Tiz" at any drug store or department store. Get instant foot relief. Laugh at foot sufferers who complain. Because your feet are never, never going to bother or make you limp any more.

ARMISTICE STORY A PURE FAKE

(By Associated Press)
Washington, Nov. 7.—At 9 o'clock tonight it was officially stated that no armistice with Germany had been signed and at that hour the German Commissioners had not even entered the French lines to receive the Allied terms for an armistice.

Washington, Nov. 7.—At 2:05 this afternoon an official telegram was received from Paris in reply to a dispatch from the State Department, that the armistice had not been signed with Germany and that the Commission had not been received by Marshal Foch. This was 12 o'clock Washington time and when reports were being sent out and printed and yet one of the New Agencies failed to expose the hoax.

Paris, Nov. 7. 11 p. m.—German grand headquarters requested the Allied headquarters by wireless this afternoon to permit the passage of the German delegation for armistice negotiations through the lines. The order was given to cease firing on this

FRANK W. KNIGHT SHOE TALKS

Here are shoes with abundant service-giving and attractive style features. They are effectively designed to render the utmost in shoe comfort. They have been built along lasts that will insure this comfort and still be good in style.

You can't get a better shoe than this. We have satisfied ourselves on this point, and you will be as equally satisfied if you investigate and compare values. This shoe is made in both black and tan and is the shoe for the hardest kind of wear.

Science Built This Shoe

The Trupedic is an anatomic shoe but you'd never guess it to look at it. It's so smart and stylish. It's made on new principles and in three types because it's now an established fact that there are three types of normal feet, instead of merely one. The only way for you to tell the type you wear is to try on all three types. Your foot will know the right one.

There are other features about this shoe which we will explain to you if you will come in. The Trupedic is the shoe of the hour!

A Better Day Is Dawning.

It is most gratifying news that reaches the country day after day from across the water. The substance of it is that the "jig is up" and that the end of the fighting is close at hand. It will take time to arrange all the details of settlement, but it is safe to assume that the war is practically over, and for this the whole world cannot but be devoutly thankful.

The public is familiar with the situation as it stands today. Germany's allies have fallen away from her one by one until they are all gone and she stands alone facing the fate and the fortune she invited when in a spasm of mad ambition she set out to dominate the world by force of arms. As a nation she was big, powerful and fully prepared for her insane venture, but the civilized world was bigger and more powerful, and from the time it gathered itself together to meet the unparalleled and unpardonable onslaught but one outcome has been possible.

Today Germany has a choice between just two things. She can surrender and accept the conditions imposed by the Allies, and still have her country intact; or she can continue the war until her country is overrun and devastated, with nothing to do in the end but accept the conditions imposed by her conquerors. Unless the nation has passed the bounds of all reason it should not take long to make the only choice that remains open.

Developments have come very rapidly of late, fully justifying the stand taken by the Allied nations to keep up the pressure until the back of the Central Powers should break beneath the load. That back has broken and the end is not only in sight, but very close at hand. Yet, even so, the heavy hand of world authority must not and will not be withdrawn until the last gasp of military autocracy shall have been recorded and Germany takes her place among the down and out.

The world is breathing easier. There is much hard and important work yet to be done to restore it to a normal condition, but this can and will be done without the physical, mental and financial strain to which the nations have been subjected for four long and weary years.

The war has taxed the world severely. The suffering and sacrifices have been unprecedented. But out of the struggle will come incalculable good. From this time on freedom in reality as well as in name is to be the portion of the nations, great and small, and the world will be the better and the happier for it.

There is a great light in the east which foretells the dawn of a brighter and better day for all mankind.

The people of Eastern and Northern Maine are protesting against the seizure of liquors which are claimed to be needed in the battle with influenza. But Sheriff Thayer, who is operating in the district mentioned, was placed in office on the distinct understanding that he should enforce the law, and this he has been doing regardless of all other considerations.

Loud calls for the abdication of the Kaiser are heard in Germany, according to reports. And the demand will doubtless be honored by those who have the naming of the conditions of the settlement. The Kaiser and his war lords must step down and out forever if the results of the war are not to be turned into a farce.

The times are indeed hard when the gold producers call upon the government for assistance to make their industry profitable. Gold miners have usually been able to take good care of themselves and their business, and the probability is that they will manage to keep afloat, even if the government fails to step in.

When the Italians learned that Austria-Hungary had accepted the armistice terms they fell and acted just as any other people would have done under the circumstances. And it is needless to say that there were no long faces among them.

Under the circumstances the country will readily pardon President Wilson for failing to go to New Jersey to vote. Voting is an important duty, but the President had still more important business on hand last Tuesday.

The terms laid down to Austria are approved by Senator Lodge of Massachusetts. No one will now doubt that they are sufficiently strong.

It is up to Germany to say when the war shall end. And it is safe to assume that she will not keep the world long in waiting.

Small favors thankfully received: Three pounds of sugar per capita per month is better than two.

Restored Bohemia
(From the New York Sun)
Exactly three hundred years have elapsed since Bohemia fell under Hapsburg domination at the opening of the Thirty Years War. And today the Bohemians have at last regained their sovereign freedom in a new founded republic. This is the justice, though long delayed, which the Allies are bringing the suppressed nationalities of Europe.

To Save the World
(From the Montreal Star.)
Victory over the Germans will not mean victory over the food shortage.

The end of the war will leave with the people the pressing duty of conserving food by thrifty buying, by using substitutes, by studious care in cooking and by moderate eating. Next summer will require its vacant lot gardens and the patriotic, humanitarian impulse on the part of the gardeners, whether the war ends or not.

Every mile of land taken from the enemy in Belgium, France, Italy, Turkey or elsewhere, adds its thousands of people who look to Canada and the United States for food. That is the announcement of the United States War Garden Commission.

Food shortage in Russia, in Central Europe, and in the Near East, are causing concern. Famine and pestilence of unprecedented proportions, worldwide in reach and influence, are possibilities.

The Allied peoples have no higher duty, as a satisfactory end of the war draws near, than to continue the battle of thrift and self-denial in the use of food which have become so widespread amongst those whose carelessness would mean great waste. More and more people must join the good movement and help the world to safety.

THE BIGGEST FAKE NEWS STORY EVER

Handling is none too good for the
individual who gave the American
people the false news regarding the
alleged signing of an armistice be-
tween the Germans and the Allied
armies.

There was absolutely no truth in the
report and it was officially declared

by our government as without founda-
tion and yet certain newspapers
printed it as a fact.

The Chronicle wires were kept busy
all evening telling hundreds of callers
that the story was without foundation.

INDIAN SUMMER WEATHER.

This is typical Indian summer weath-
er, a period of delightfully mild, busy
weather that is liable to occur at any
time from late in September or even
into December. The fine weather of
today has brought many people into
town from the suburbs.

TOM M'LAUGHLIN KILLED IN FRANCE

Member of Machine Gun
Company; Left Here on
May 10, 1918.

The friends and acquaintances of
Thomas D. MacLaughlin in this city
were filled with sorrow today in learn-
ing of the young man's death in France.

The news of his death, which oc-
curred on Sept. 27, was received by
the family of Francis E. Drake of Hy-
beach, through his aunt in New York.
MacLaughlin was widely known and
liked in this city and previous to his
leaving here on May 10, 1918, for Port
Smoot, N. Y., he had been employed
as a chauffeur for Mr. Drake for five
seasons. He later trained at a south-
ern camp and was then sent to Salla-
bury Plain, England, for further spe-
cial training. Just previous to his
departure from this city he received
the sad news of his brother's death on
the battlefield. At present another
brother is recovering from wounds in a
base hospital in France. He was a
native of Coleraine, Ireland, and made
his home during the winter at 2059
Euclid avenue, Cleveland, O., return-
ing to Hybeach each summer with
the Drake family.

WORKING TO RAISE QUOTA

Committees have been organized in
Portsmouth and the preparations are
well under way for the big United
War Work Drive which will take place
throughout the nation between Novem-
ber eleventh and eighteenth.

This evening at 8:30 Mr. H. S.
Smith, campaign manager for New
Hampshire, will meet with the men
who will serve as team captains and
workers at the Hotel Rockingham and
outline the methods to be followed in
beginning the campaign to a success-
ful culmination. In the afternoon at 4
o'clock there will be a similar meeting
of the women workers at the Wom-
an's Building, at which Mr. Smith
will speak.

Funds are going to be raised
through this campaign for the war
work during the coming year of the
Young Men's Christian Association,
the Young Women's Christian Asso-
ciation, the National Catholic War
Council, Jewish Welfare Board, War
Camp Community Service, American
Library Association, and the Salvation
Army. The national quota has been
set at \$170,500,000. Portsmouth's quota
is \$28,300. There is every expectation
that this quota will be greatly ex-
ceeded.

The campaign throughout Rocking-
ham County is under the direction of
Mr. P. M. Sise. The chairman for
Portsmouth is Mr. Frank W. Randall.
The executive committee includes: D.
P. Northwick, Rev. D. A. Sullivan,
Louis Shapiro, Capt. W. J. Lawrence,
M. G. Kelly, Miss Martha S. Kimball,
Miss Hannah G. Penick, C. E. Down-
ton, J. P. Conner, H. D. Tilton, H. G.
Taylor, P. A. Holden, T. P. Flanagan,
W. J. Cator, R. L. Costello, L. W.
Ewald, P. W. Hartford, Albert Hyslop,
E. H. Baker, H. M. Smith, R. C. Mar-
gerson, R. Paula E. C. Matthews Jr., R. D.
McDonough, L. G. Peyser, John G.
Sweetser. The work of the women in
this campaign will be carried on un-
der the direction of Miss Gertrude
Luce and Miss Bertha M. Bennett.

Mr. P. M. Sise who was interviewed
today, had this to say in regard to the
plans for the campaign: "The program
of activities for enlisted men during
the coming year is not going to be de-
creased in any degree because there
are indications that peace may be at
hand. In fact, next year's needs de-
mand an extension of these activities
for beyond those the announced quota
covers. A great many people do not
realize that when peace finally arrives
it is going to take practically as long
to demobilize our army as it has taken
to mobilize it. The military authori-
ties have stated that a period of fif-
teen months from the time the con-
dutor ceases will be required to trans-
port the Canadian army to their
homes, and that not less than eight-
teen months will be needed to convey

the armies of Australia and New Zea-
land homeward.

The fact that these men have com-
pleted the job we sent them out to do
certainly will not in any measure less-
en our obligation toward them.

The period of demobilization will
be a period of severe trial for our
boys in uniform. There will not be the
happening danger and strain of pre-
paration for a tremendous task, to
steel their wills and occupy their
time. There will be a tendency to let
down standards and relax discipline.
It is of utmost importance that every
provision be made for the wholesome
and profitable use of their time.

We want the period of demobiliza-
tion—if this period is really near
enough at hand for us to even con-
sider it—to be, not a period of demor-
alization and weakening, but a period
of strengthening and preparation for
the pursuits of peace."

ABSOLUTE
SATISFACTION

TO RETURN FROM FRANCE

Mrs. Frank H. Whittlesey of Pitts-
field has this week received a cable-
gram from her son, Lieutenant Colonel
Charles W. Whittlesey, stating that he
will return in mid-November.

Lieut. Colonel Whittlesey is the fam-
ous leader of the lost battalion of Amer-
ican troops who refused to surren-
der to the Germans when surrounded in
the Argonne region.

Mrs. Whittlesey passed several
weeks in this city last month, another
son, Elmer Whittlesey, showing his
participation by coming here to take a
position at the Shattuck shipyard. He
boarded on Richards avenue, and was
stricken with pneumonia at the time
of the epidemic. His mother came to
this city, called by his illness, and
stayed here several weeks. Upon his
recovery two weeks ago they returned
to their home in Pittsfield.

BIG BOSTON FIRE OCCURRED 46 YEARS AGO SATURDAY

Of Portsmouth Men Who
Fought the Flames Only
12 Are Living.

A notable incident in the history of
the Portsmouth fire department is
worthy of revival. On Saturday eve-
ning, Nov. 9, 1872, the greatest fire in
Boston's history started on Kingston
street, and at half past one o'clock on
Sunday morning Nov. 10th, the fol-
lowing telegram was received at the
railroad station to T. H. Miles: "Load
up all the spare fire engines in Port-
smouth and send them to Boston. Spe-
cial, soon as you can."

At five minutes past two o'clock
the alarm was sounded and a special
train was soon on its way with the
Atlantic Railroad and the following
members of the fire department:

Chief Engineer Stephen L. Marston;
Asst. Engineer Francis W. Ham, Clerk
of the fire department W. L. Hadden,
members of Kennebunk No. 3 Foreman

LONDON SAYS ARMISTICE STORY FAKE

(By Associated Press.)
London, Nov. 7.—The British foreign office this evening, according to the official bureau that there was no foundation for the story that an armistice with Germany had been signed, and at 6.30 tonight no information had been received in London that the commission had met.

NEW CASTLE

New Castle, Nov. 5.—The dancing party at the Service Club in Pythian hall last evening was most enjoyable. An orchestra made up from several

musicians from the fort band furnished music and those in attendance included a number of the men who have lately arrived at the fort.
The Red Cross chapter of New Castle moved into its winter quarters at the public library today and its gatherings will be held weekly as usual. The Christmas boxes are now being given out to send to the men in the service overseas.

DRAWN AS JURORS.

The following have been drawn as jurors from Ward Two: Horace Massey and Frank J. Philbrick.

BEAUTIFUL HAIR THICK, WAVY, FREE FROM DANDRUFF

Draw a moist cloth through hair and double its beauty at once.

Save your hair! Dandruff disappears and hair stops coming out.

Immediate!—Yes!—Certain?—That's the joy of it. Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after an application of Danderine. Also try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt or excessive oil, and in just a few moments you have doubled the beauty of your hair. A delightful surprise awaits those whose hair has been neglected or is scraggy, faded, dry, brittle or thin. Besides beautifying the hair, Danderine dissolves every particle of dandruff, cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair, but what will please you most will be after a few weeks' use, when you see new hair—fine and downy at first—yes, but really new hair—growing all over the scalp.

Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating, stimulating and life-producing properties cause the hair to grow long, strong and beautiful.

You can surely have pretty, charming lustrous hair, and lots of it, if you will spend a few cents for a bottle of Knowlton's Danderine from any drug store or toilet counter and try it as directed.

APPLICANTS FOR CAMP FREMONT, CALIFORNIA

Lieut. G. W. Langdon, U. S. Guard, who has been in this city taking applications for the Officers' Training Camp at Camp Fremont, California, gives out the following interesting and valuable information:

His office in this city closes Friday evening, Nov. 8, at 8 o'clock and all outstanding and incomplete application papers that have been given out should be returned to him before then. In cases where this is not possible, they may be sent to him in care of the Mayor's office, Doyen, N. H., where he will be until Wednesday, Nov. 20, when the recruiting offices for this camp close.

Lieut. Langdon has just received telegraphic notice from his headquarters to the effect that the men who will be selected for Camp Fremont and who are intended for general service by the Local Boards before being called by the Headquarters of the Northeastern Department (his headquarters) are to be sent to Camp Fremont from the posts or stations to which they are assigned.

Any applicants so inducted will inform the Commanding General, Northeastern Department, 99 Chauncey St., Boston, Mass., of their organization and station, as soon as inducted, so that proper orders for their transfer to Camp Fremont may be issued.

Lieut. Langdon expresses gratification over the reception that has been accorded him here and states that during his nine days' stay, so far, he has received 53 applications, 21 of which have been completed and forwarded.

EXETER

Exeter, Nov. 8.—The annual meeting of the Rockingham County Farmers' association was held Thursday in the lake theatre, the morning session opening at 10 o'clock, which consisted of the annual reports of the officers. The report of the association was given by Ray E. Duell, agent, and his assistant, Don D. Ward. The report of the Essex Club was by Agent Lawrence A. Christie of Exeter, and of the Girls' club by Miss Sanborn, both of the extension department of the state college.

A talk on home demonstration was given by Helen McLaughlin of Merrimack county. Treasurer Alden C. Sanborn of Fremont read the report of the treasurer and Charles W. Barker of Exeter (that of the purchasing agent in which capacity he has served during the past year. Oscar E. Hulse of Stratham gave some interesting figures on the first year of the banking department from his position as banking agent.

The business meeting was held at noon, at which President Walter B. Farmer announced that he would be unable to serve again in that capacity owing to the pressure of other business, and in his place Ralph B. Parmenter of Londonderry was elected.

The other officers chosen were: Secretary-Treasurer, Edmund S. Boyer of Exeter; first vice president, Charles W. Barker of Exeter; second vice president, William B. Underhill of Chester; third vice president, Leslie W. Coburn of Salem; executive committee, Walter B. Farmer of Hampton, John A. Tupper of Exeter, George A. Christie of Exeter, Miss Virginia Smith of Nottingham, Miss Nellie G. Lake of Brentwood and Mrs. Ruth Drake of Exeter.

Committee of Agriculture Andrew L. Fisher, Richard M. Fiske of the New England Milk Producers' association and State Senators-elect, Fred James A. Tupper of Exeter gave addresses in the afternoon.

The store windows are attractively filled with exhibits, products of the members of the association and members of the Boys and Girls clubs.

The opening of the evening school has been postponed from Nov. 11 to Nov. 18 the sessions to be held as in previous year at the high school building. Special attention will be paid in teaching the English language to the foreigners.

The Granite State club of the academy has organized this year with the following officers: President, Frank Hutchins of Ossipee; vice president, Edward P. Hale of Manchester; and secretary-treasurer, Woodbury Howard of Nashua. There are about 40 students from New Hampshire and the members of the Granite State club comprise many of the number.

REPORTS TO WASHINGTON TELL OF RIOTS AT KIEL.

Washington, Nov. 8.—An official dispatch received today quotes the Frankfurt Zeitung as saying rioting in Kiel began last Sunday, after a meeting at which independent Socialists spoke.

Subsequently sailors from the fleet and workmen from the Kiel Arsenal joined in an effort to deliver by force the sailors of the third German squadron, who had been imprisoned for refusing to obey orders. There were several encounters with the police, in which three persons were killed and 29 wounded.

The newspaper says a crowd of sailors and workmen moved through the town, calling upon all sailors and workmen in the saloons and coffee houses to join them. Military patrols in the town were dispersed and it was indicated that the Governor of Kiel to prevent further bloodshed received delegates from the crowd and ordered the release of the sailors.

TURN HAIR DARK WITH SAGE TEA

If Mixed with Sulphur It Darkens so Naturally Nobody can Tell.

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmother's recipe, and folks are again using it to keep their hair a good, even color which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays, though, we don't have the troublesome task of gathering the sage and the mussy mixing at home. All drug stores sell the ready-to-use product, improved by the addition of other ingredients, called "Wyeth's Sage and Sulphur Compound" for about 50 cents a bottle. It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur Compound, is that, besides beautifully darkening the hair after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive. This ready-to-use preparation is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

YANKEES SWAM MEUSE UNDER FRIGHTFUL FIRE

With the American Forces on the Sedan Front, Nov. 7.—The crossing of the river Meuse and the capture of the town of Din by the Americans may go down in history with any similar deed. When its full details are known it will rank as one of the most gallant feats of the entire operations northwest of Verdun.

The troops who accomplished it will be entitled to rank as heroes, for their work in militarily crossing the stream was a strategic move of unusual daring.

The crossing involved the forcing of a way over the 150-foot river, a half-mile wide stretch of mud and a 90-foot canal in the face of a frightful enemy fire.

It also involved swimming by those who knew how and the pulling of others over on ropes. Grappling irons were used to scale the sheer walls of the canal, along which machine gunners had been posted, under the fire of scores of batteries from the hills adjoining.

The order to cross the canal came at mid-afternoon Monday. The troops received their grim instructions for the first time in days. The men knew almost as well as their commanders the difficulty of the task, and realized how well-nigh impossible its accomplishment would be. Yet they never doubted or hesitated.

The orders were to send over one brigade first, and if it failed, to send another, and others, one after the other, if this became necessary. It was with dash that the Americans tackled the problem. Theoretically, they had the choice of crossings anywhere for five miles. Actually, they were limited to one point, where two-thirds of a mile of mud lay between the river itself and the canal that roughly paralleled the river.

The Germans were too firmly entrenched at all other spots. They had not protected themselves with trenches here only because they never dreamed that the Americans would be so daring as to try to negotiate the passage. This was a short distance north of Britelle.

All the swimmers of the first brigade were first singled out and put in the van. It was intended to attack in this way on the theory that the swimmers were less likely to be hit by the Germans owing to the fact that they would be nearly submerged. On the other hand they could carry with them ropes and other paraphernalia for assisting non-swimmers across.

The building of pontoon bridges was put off until at least some American elements had crossed the river. Notwithstanding some losses, and the fact that the swimmers could not defend themselves, many of them reached the east bank of the river with lines which were drawn taut across the stream. Others floated on rafts and collapsible canvas boats. These men had less success than the swimmers, because they were better marks for the enemy's rifles and the boats could easily be sunk by bullets even if their occupants were not hit.

Close to where the swimmers crossed the engineers began to throw over pontoon boats and a tiny footbridge. The pontoons were destroyed by the enemy, but the bridge remained intact and added materially to the constantly increasing numbers of men arriving on the west bank of the river. Soon after dark the first brigade was across the first barrier and more men were ready to make the journey.

The second phase of the perilous undertaking then began—the crossing of the kilometer of mud stretching between the river and the canal, which, though it was under a tremendous enemy fire, was not held by infantry. The Americans stumbled across the mud through the withering fire. Their feet sank into the mud and soon the pace of the men was slowed down to a laborious walk. Nevertheless, they got through, even if the task caused some depletion in their numbers.

The next phase constituted the crossing of the narrower but deeper canal.

INSPECTOR HILDRETH DEAD

Inspector Chifton D. Hildreth who was connected with the Manchester police department for 25 years, serving as policeman, captain and inspector, died Thursday. As a private detective for several years before becoming a member of the police force he had earned the reputation of being a clever and alert investigator.

He was born in Boston, Sept. 13, 1856. He was graduated from Pembroke academy and, after studying law was admitted to the bar. Some time later he was made a deputy sheriff. While serving in that capacity, he solved the famous Langmaid murder mystery, 10 years ago. He then entered private detective work, later becoming state detective, making his headquarters at Suncook. He afterwards opened up a private detective agency in Manchester.

He was made chief of police of Suncook and served the office for eight years. He then held offices in Pembroke and Allensdown and later drifted into the hotel business at York Beach. He joined the police force in 1903 and succeeded Lafayette Tebbetta

as captain in 1905. This position, he relinquished after 10 days. After a while he again joined the police force as inspector in which position he faithfully served since 1908.

Mr. Hildreth was a prominent member of the Odd Fellows, being the last charter member of Howard lodge, No. 31, of Suncook. He was a former member of Jewell lodge, No. 91, A. F. & A. M. of Suncook. He also held membership in Hildreth Incumbent of Odd Fellows of Suncook and the Ancient Order of United Workmen. He was chairman of the board of directors of the Manchester Police Relief association.

A son, Will C. Hildreth of York Beach, and three grandchildren and Mrs. Mary French of this city, a niece are survivors.

Hot Water for Sick Headaches

Tells why everyone should drink hot water with phosphate in it before breakfast.

Headache of any kind, is caused by auto-intoxication—which means self-poisoning. Liver and bowel poisons called toxins, sucked into the blood, through the lymph ducts, excite the heart which pumps the blood so fast that it congests in the smaller arteries and veins of the head producing violent, throbbing pain and distress, called headache. You become nervous, despondent, sick, feverish and miserable, your meals sour and almost unpalatable. You then resort to acetaminophen, aspirin or the bromides which temporarily relieve but don't rid the blood of these irritating toxins.

A glass of hot water with a teaspoonful of limestone phosphate in it, drunk before breakfast for awhile, will not only wash these poisons from your system and cure you of headache but will cleanse, purify and freshen the entire alimentary canal.

Ask your pharmacist for a quarter pound of limestone phosphate. It is inexpensive, harmless, as sugar. If you aren't feeling your best, if tongue is coated or you wake up with bad taste, foul breath or have colds, indigestion, biliousness, constipation, or sour acid stomach, begin the phosphate hot water cure to rid your system of toxins and poisons.

BIG FIRE DESTROYS AIRPLANES

(By Associated Press)

Marblehead, Mass., Nov. 7.—Plant No. 2 of the Burgess Aeroplane Co., which was filled with airplanes and 40 yachts was totally destroyed by fire tonight. The fire started from an explosion in the paint shop in the Burgess Company's building. Three other buildings were badly damaged.

If you want to know what is going on all the time you must read the Herald every day.

SHOPLIFTERS SENTENCED IN COURT TODAY

Heavy Fines for Women Who Escape State Prison Terms.

Three women and three men indicted by the grand jury appeared before Chief Justice Kivel in the superior court this morning and pleaded guilty to the indictments.

Carmela and Bertha Baccalaj of Boston and Angelina Vassella of this city were each sentenced to two months in the House of Correction. They were charged with larceny of goods and receiving stolen property from the stores of G. B. French, Alex. Sadden and the P. W. Woolworth Company. Judge Kivel pronounced the sentences in each case, addressed the women through an interpreter. He spoke of the necessity of the crime of shoplifting and spoke especially to the women who had been from Boston. He made it plain to them that they were not going to come into New Hampshire and carry on such work and get away with it. The fact that the women brought 6 or 8 children into court had no bearing on the case as far as a just sentence was concerned. The court said they did not bring the children with them or think of them when they stole the goods from the several stores.

In each case the court imposed a fine of costs of prosecution amounting to \$250, the women to make restitution to the amount of \$155. He also added sentences of 6 years in state prison.

These sentences were suspended during good behavior and in the future if any of them should be brought into court, three years of the imposed sentences would be ordered served.

Cassius Marlas of Candia pleaded guilty to assault on Hazel Stone of the same town on May 27, was fined \$41, and costs of prosecution \$10.

Harry Bullard pleaded guilty to the charge of breaking and entering and larceny. A state prison sentence of not more than three years or less than two years was suspended during good behavior and payment of the costs of prosecution.

Wm. H. Tucker on the same charge and another, a statutory offense, received the same sentence as Bullard on the first indictment. On the second a jail sentence of 3 months was suspended on the payment of \$50, and costs of prosecution.

THE HERALD HEARS

That Portsmouth was one of the few places that did not get caught in the premature armistice celebration.

That Dover started in to celebrate but cut it short after one church bell turned over a few times.

That Chief Engineer Woods had several calls on the telephone by people who wanted to know why the fire alarm was not making some noise.

That the Department of the Northeast Headquarters has purchased \$500 carloads of canned tomatoes.

That each car is said to contain 1000 cans.

That if all the cars were made up

In one train it would reach over 50 miles.

That the Board of Health in Lawrence are so busy that its meetings are held by telephone.

That the clerk of the board goes to headquarters and take a record of the votes of each member regarding the further lifting of restrictions placed on public gatherings during the influenza epidemic.

That the new board of registrars may organize tonight.

That the politicians are on the hunt for mayoralty timber.

That Exeter and Newburyport hit hard on the fake armistice news.

That quite a few people from Kittery came over to this city last night expecting that a big celebration would be held.

That they were disappointed on learning the real facts of the news from across the water.

That the superior court expects to sit here until late in December.

That special officers from the Department of Justice who were active on election day are still in this city.

PARISHIONERS WILL GIVE RECEPTION TO REV. J. P. MORAN

A reception will be tendered the Rev. John P. Moran assistant pastor of the Church of the Immaculate Conception by the members of the parish at the parish school hall this evening at 8 o'clock. Mr. Moran will leave for his new charge on Saturday.

NOTHING STOPPED KIDS' CELEBRATION

Reports from Washington or anywhere else on the signing of an armistice and the contridiction of the same have no effect on young America, especially the juveniles. In the North End district who were everywhere they could get with the American and Italian flags. They did much singing and shouting and the vocal strains showed that they were up to date on the latest songs. Every now and then they stopped long enough in the march to tell somebody what they thought about the Kaiser.

They had a great time but failed to go over the top when they landed at the Boston and Maine depot, the only place where they were forced to make a retreat.

Good Taste Isn't Expensive

There are homes in Portsmouth, real homes, with happiness an abiding factor every hour in the twenty-four, where the furniture averages a very low cost for each room, yet each piece is correct, refined, and in excellent taste.

Now, do not be startled by this statement, but study it and learn the reasons why. That store you have heard talked about so much, Margeson Brothers, have expanded their efforts in showing and proving to you splendid, appreciative, home-loving people of our city and vicinity that furniture, to possess the elements of good taste, service and satisfaction, needs neither to be showy nor necessarily expensive.

As a concrete example, there is the sanitary wood bed, with an inexpensive dresser, chiffonier, or dressing-table to match, with perhaps a reed chair for comfort.

This store is for all the people—all who appreciate its aims and its purposes. And remember, please, now and always, you are expected to come as often as you wish, spend all the time you care to look and not be obligated in the slightest to buy. We want you to come often to our furnished suite, "The House Beautiful."
